COMPUTER SCIENCE

Mr Jones and Mr Pires

What will we cover this year?

Basic Microsoft Office Skills - You will learn how to effectively use word processing, presentation and spreadsheet software.

Unit 1 – Using computers safely – You will learn how to use the internet safely and how to build a PC

What will we cover this year?

Unit 2 – Kodu – You will create and build your own interactive worlds. You will then program the characters to play in the game.

Unit 3 – Understanding Computers – You will learn exactly how a computer works from the inside of the computer.

What will we cover this year?

Unit 4 – Scratch – You will advance your programming skills by using a interactive program where you create backgrounds and sprites to play with.

Unit 5 – Databases – Learn how we securely store data in a computer network.
